INTERNSHIPS

Xiaohongshu (Rednote), LLM Post-train *Mar 2025 - Jun 2025*

Advisor: Shaosheng Cao

- Investigated the application of cutting-edge reinforcement learning paradigms, such as R1-Zero, to both plain text and multimodal image-text machine translation tasks.

Alibaba, Quark Foundation Model RLHF *Nov 2024 - Mar 2025*

Advisor: Yu Cao

- Researched how synthetic data (self-inspiration vs. distillation) affects the initial and subsequent reinforcement learning (RL) training for a model's mathematical reasoning abilities.
